

Transforming Ordinary to Extraordinary

The Gotsis Home GOSHEN, NY

WHEN DOCTORS BILL GOTSIS AND NANCY LINNEMAN PURCHASED THEIR NEW HOME, THEY WANTED A DISTINCTIVE HOME - ONE THAT WOULD FULFILL THEIR family's practical needs and reflect their appreciation for the artistic.

The project began with a complete renovation of the kitchen and adjacent breakfast area, and included the hall powder room. The details and finishes in each space, blend with one another, creating a cohesive design throughout.

Next was the transformation of the master suite expanding the bath and closet areas into an adjacent bedroom. Architectural moldings, organic materials and finishes were added throughout. The project transitioned into an updated shared bath for the children.

Soon after, Masterwork revitalized the two-story entry hall, repositioning the stairwell, complete with an elaborate railing and chair rail details. Those appointments carry into the adjacent dining room now open to the hall. Unique wall panel elements and a molded ceiling cornice complete with an intricate stencil.

The most dramatic change was the creation of a new vestibule bumped out into the existing covered porch, including barrel-vaulted ceilings inside and out. Custom designed mahogany entry doors welcome you into this now extraordinary home designed for people with extraordinary tastes. ■■

“Any good contractor can do a renovation, but it takes an appreciation for art and design to truly appreciate what Masterwork did for our home.”

The Gotsis Family

When we first bought this house we knew it was going to take a lot of work to turn it into the home we wanted. That’s why we turned to Joe Matta and Masterwork Home. Joe doesn’t just see rooms or walls; he sees opportunities for creativity and originality. I’m sure he can do just about anything you ask of him, but you have to want something really distinctive and special to take full advantage of his talents.

First, he went to great lengths to understand exactly what we needed, then he took equal pains to understand our tastes. Once he knew we were serious about letting his creativity soar, there was no stopping the ideas that flowed and each additional detail just made the whole better.

We knew we’d found the right designer at that point, but it wasn’t until the Masterwork team began the work that we fully understood why their reputation is so incredible. Flawless workmanship, the highest quality materials and every milestone met on time; we wanted the best and we got it. 🏡

Joe's Viewpoint

**NOT EVERYONE
RECOGNIZES OR
APPRECIATES THE
VALUE OF ART AND**

**DESIGN, BUT EVERY STEP WE TOOK ON
THIS PROJECT LED US FURTHER AND
FURTHER DOWN THAT PATH.**

One of my great pleasures is developing relationships with our clients.

With Nancy and Bill, every meeting was enjoyable and productive. We became friends in short order. They challenged me with their goals, but were open and receptive to my recommendations.

We all enjoyed the process which resulted in a project and a relationship that will stand the test of time. ■■
